

# Mercedes-Benz GT 63 S E-PERFORMANCE 2023

## SPECIFICATION

Type:	V8 Twin-Turbo
Displacement:	4.0 L
Power:	<b>639 hp</b> (470 kW) from the petrol engine <b>204 hp</b> (150 kW) from the electric motor
Torque:	1,470 Nm combined from both power sources.
Acceleration:	(0 to 100 km/h): 2.9 seconds

## TECHNICAL

Nominal Power:

Total: 639 hp (470 kW) from the petrol engine.

Additional: 204 hp (150 kW) from the electric motor.

Torque: 1,470 Nm combined from both power sources.

Acceleration (0 to 100 km/h): 2.9 seconds.

Top Speed: 316 km/h.

Fuel Consumption:

Combined: 8.7 l/100 km.

Equivalent: 10.1 l/100 km.

Electricity Consumption: 12.7 kWh/100 km.

CO2 Emissions: 198 g/km.

CO2 Emissions from Fuel/Electricity: 58 g/km.

Energy Efficiency Category: G.

High-Performance AMG Battery:

High power output with frequent and extended use capability.

Direct cooling system for cells ensuring uniform temperature.

Fast energy absorption and high performance density.

Dynamic AMG Mounts:

Adjustable damping and stiffness based on driving conditions.

Resolves the conflict between comfort and dynamic handling.

AMG RIDE CONTROL+:

Multi-chamber air suspension system.

Automatic level control.

Electronically adjustable adaptive damping with a wide range of settings for sportiness and comfort.

AMG Rear Axle Steering:

Enhances agility and maneuverability at lower speeds.

Provides stability and comfort at higher speeds,

mimicking a longer wheelbase vehicle.

## INTERIOR

### AMG Performance Seats:

Highly contoured with integrated headrests.

AMG logo on headrests.

Designed for maximum lateral support during aggressive driving.

### AMG Steering Wheel Controls:

Specially designed buttons for rapid and precise control of driving dynamics features.

Provides a race-inspired driving experience.

### Instrument Cluster:

MBUX Widescreen cockpit with hybrid-specific displays.

Real-time information on electric range, power consumption, performance metrics, and component temperatures.

### Center Console:

Eight screen buttons for various controls:

Driving programs. Transmission settings.

AMG suspension adjustments.

ESP® settings.

Exhaust system management.

Stop/Start function.

Sound volume adjustments.

Rear spoiler settings.

Customizable sound profiles through AMG touch-sensitive controls.

### MBUX System:

Latest version with advanced digital features.

Integrated hybrid functions and energy flow displays.

## EXTERIOR

**Hybrid-Specific Rear Bumper:**

Integrated charging flap for easy access.

Unique design element distinguishing the hybrid model.

**"E PERFORMANCE" Wing:**

Badge indicating the hybrid powertrain.

**AMG Dual Exhaust Tips:**

Specific design for the S model, ribbed for a distinctive look.

Enhances the vehicle's sporty appearance and acoustic signature.

**AMG Forged Wheels: Size: 21 inches.**

Design options include 5-double-spoke or Y-spoke patterns.

Available in various finishes.

**AMG Chrome Package:**

Gloss chrome elements highlight the vehicle's refined design.

Adds a touch of luxury and contrast to the body color.

**AMG Aerodynamic Package:**

Developed in a wind tunnel for enhanced high-speed stability.

Adds components that increase downforce and reduce aerodynamic drag.

Includes a fixed rear spoiler with a motorsport-inspired design.

**AMG Performance Exhaust System:**

Variable exhaust flaps for adjustable sound profiles.

Allows for a quiet, comfortable ride or a more aggressive, sporty sound depending on driving mode.

**AMG DYNAMIC SELECT:**

Allows switching between different driving modes at the touch of a button.

Adjusts engine response, transmission behavior, suspension settings, and steering characteristics for various driving conditions.
